

Appl. No. 10/788,833
Amdt. dated 03/22/2005
Reply to Office action of 12/22/2004

P804-1242E-US

Amendments to the Specification:

Please replace the paragraph appearing below the Title on page 1 with the following amended paragraph:

This application is a continuation of Application Ser. No. 10/004,956, filed December 5, 2001, now U.S. Patent No. 6,722,440, which claims the benefit of U.S. Provisional Application Ser. No. 60/251,293, filed December 5, 2000. U.S. Patent No. 6,722,440 is also a continuation-in-part of U.S. application Ser. No. 09/378,384, filed on August 20, 1999, now U.S. Patent No. 6,347,949, which claims the benefit of U.S. Provisional Application Ser. No. 60/097,449, filed on August 21, 1998.

Please replace the Abstract appearing on page 27, lines 1-6 with the following amended paragraph:

An isolation system for producing oil and gas from one or more formation zones and methods of use are provided comprising one or more pressure activated valve and one or more tool shiftable valve. The tool shiftable valve may be actuated before or after actuation of the pressure activated valve.
